

# AAOS Launchpad **Brand Identity & Style Guide**

# Theme and Tagline

## Prepare for Takeoff

The tagline “Prepare for Takeoff” highlights how AAOS equips individuals for their practice journey. The AAOS Launchpad theme adopts a sleek, modern design aimed at appealing to a younger audience. This is the signature look for the campaign, see the following pages for various iterations of the creative.

If you need more icons, photos, illustrations, or have questions, please don't hesitate contact to Hollie Muir at [muir@aaos.org](mailto:muir@aaos.org)

# Logo

When using the name of the program, it should always be AAOS Launchpad. The word Launchpad should be in all caps.

The Launchpad timeline serves as a visual tool to highlight the program's components.

If you need more icons, photos, illustrations, or have questions, please don't hesitate contact to Hollie Muir at [muir@aaos.org](mailto:muir@aaos.org)

# AAOS Logo Usage

The AAOS Launchpad is a product/program of the American Association of Orthopaedic Surgeons and should therefore always be connected with the Association branding. The Association (blue) logo should always be used on the Launchpad platform. The preferable logo is the two-line Association logo in color, all black or all white.

If you need more icons, photos, illustrations, or have questions, please don't hesitate contact to Hollie Muir at [muir@aaos.org](mailto:muir@aaos.org)

# Theme Artwork Guidelines

The various rockets and devices can be based on promotional/digital piece.

Incorporate people illustrations to highlight the human aspect of the program, showcasing diversity and appealing to a younger demographic. Skin tones can be customized to reflect inclusivity. Please contact us for more residents as you need them.

**PART I**  
**BOARDS**

If you need more icons, photos, illustrations, or have questions, please don't hesitate contact to Hollie Muir at [muir@aaos.org](mailto:muir@aaos.org)

# Theme Artwork Guidelines cont.

The rocket can be a stand alone illustration (no device) and without the blue background.

# Theme Artwork Guidelines cont.

Photography can be used to complement text and illustrations, providing visual balance, showcasing diversity and appealing to a younger demographic. The rocket graphic can be layered over photos, which should feature a 30% Launchpad blue overlay to incorporate the primary blue into the imagery.

**R49 G89 B150**  
**#315996**  
**Opacity 30%**

If you need more icons, photos, illustrations, or have questions, please don't hesitate contact to Hollie Muir at [muir@aaos.org](mailto:muir@aaos.org)

# Theme Artwork Guidelines cont.

Icons should feature a clean white stroke placed over an approved Launchpad color, either primary or secondary. Ensure the icons are simple, modern, and consistent in style, aligning with the overall design theme. Use a balanced size and spacing to maintain visual harmony and readability. To maintain cohesion, we recommend using the same icons utilized in the full membership branding. AAOS can provide those icons.

# Fonts

There are two core fonts used in the campaign, but they can be and should be used in a variety of sizes. Headlines should be big, bold, and lively. No other fonts should be used in creating materials for AAOS Launchpad. When words are used graphically they should be all caps.

From Training to Practice

The AAOS Launchpad program is specifically designed to bridge the gap between training and practice, equipping you with the tools and confidence needed to excel.

This program not only prepares you for the clinical and professional demands of practice but also ensures you're ready to succeed in Board Exams Part 1 and Part 2.
